

# Jazz up your home with Finishing Touches!

**W**hat do you do next after the new addition or renovation is completed?

The new furniture looks great, but something is missing. Finishing touches include artwork, mirrors, lamps, floral designs, greenery, accessories, accent pillows, area rugs, and, of course, a few photos of the family in coordinating frames.

**Accessorizing** a whole room or house can be overwhelming. Starting with a piece of artwork that you love or a beautiful area rug can help start your decorating project. We are blessed here in Lancaster County with so many local artists. A trip to Gallery Row (North Prince Street) would be a great start. Another option is local furniture stores and home décor boutiques which offer artwork along with accessories, lamps, floral designs, greenery, and pottery.

Home Goods type of stores can be “hit or miss”, however, they are great for seasonal pillows, accessories, bath and kitchen items. Our area also has local artist shows such as Mt. Gretna and Long’s Park for unique finds.

Perhaps you are overwhelmed with all of those places to check out. Working with an interior designer can help guide you in the right direction. Depending on your needs, you can start with an hourly decorating consultation to give you tips and ideas along with furniture layout and suggestions for size of artwork, area rugs, accent furniture and lamps. An interior designer can help you with getting items for your home. Some of my clients like me to help with the main pieces while others want assistance with everything including the candlesticks and coordinating bath towels. I custom my design and decorating services to my client’s needs and wants.

**Window treatments** also add color, pattern, and function (privacy and light control) to your room. There are many beautiful fabrics for draperies and valances to coordinate with your home.

Blinds, shades, and shutters help with privacy and light/ climate control. Custom made window treatments are the best options for coordination for the perfect fabrics and fabrication for all sizes of windows and glass doors.

I recommend starting with your main color. Add a few accent colors. Don’t forget pattern and textures. Mixing colors, patterns, and textures will make your home interesting and, of course, look great! Depending on your style, you can keep it simple or have fun by mixing it up.
