Specializing in window treatments and home décor, Heritage Design Interiors has been decorating homes and workplaces since 1990. From blinds to shutters and valances to draperies, they will take care of all the details from measuring to installation of your new window treatments. Choose from thousands of patterns, colors, trims, styles, and rods for your windows. In addition to great selections, quality custom products and customer service, they also have a retail store with artwork, mirrors, floral designs, accessories, lamps, accent furniture and more!

Whether your next project is new construction, renovating your home or just a room makeover, they can help you coordinate all of the details of cabinetry, countertops, lighting and plumbing fixtures, paint colors, flooring and exterior selections. Their design service is tailored to your wants and needs and their guidance will take the stress out of the selection process.

Over the past 28 years, Heritage Design Interiors' model homes have received many awards from *Best of Show* and *Best Interior Design* from the Lancaster's *Parade of Homes* Tour. They have also received awards from local magazines and newspapers for being voted *#1 Designers* and *Top 10 Designers*. Their best awards, however, come from their clients who enthusiastically recommend Heritage Design Interiors to their friends and family.

# Windows Well Styled

*Silhouettes are a sheer blind with horizontal vanes that can be tilted for privacy and light control.*

**T**oday, more than ever, there are many different window treatment styles, options and features to choose from. Let's review a few.

**Energy Savings.** Whether it is the heat of summer or the cold of winter, your window treatments can help energy efficiency in maintaining the interior comfort of your home. Honeycomb blinds are a great option to cover your windows. Hunter Douglas carries a honeycomb blind called Duette Architella that has an excellent R Value. Blinds with slats or vanes will help with keeping the cold or heat out when they are closed but a solid fabric blind such as a honeycomb is a superior option for insulating your windows.

**Privacy.** The "top down/bottom up" feature is a great option for privacy while still allowing lots of natural light into your home. An excellent feature for bedrooms, bathrooms and first floor rooms, where you want privacy but still have the ability to see outside through the top half of your window or open the top window for fresh air. This feature is available with cord or cordless lift system. Vertical or horizontal blinds offer the flexibility of tilting the slats or vanes for the degree of privacy that is needed. If you have a

second story window, you can tilt the slat upward so you have privacy from the ground level and still be able to see sky.

**Light Control & Room Darkening.** Glare on your TV or computer? Semi opaque blinds and shades can cut the glare without making your room a dark cave. Horizontal or vertical blinds allow you to redirect the light direction. If you like the option of sleeping in or during the day, room darkening blinds, shades and draperies are the answer. Some of our clients like the combination of room darkening shades with draperies that are lined with blackout lining. You can cover your windows, sliding doors and skylights to darken your room.

**No Cords.** If you have children and/or pets in your home, cordless lift system, retractable cord system or motorized blinds and shades are a safe option. No more tangled cords! Motorized window treatments are a great option for hard to reach windows. They can be operated via a remote control, wall control, or your phone. They can be programmed so your blinds open at a certain time in the morning and close in

the evening. You can set different times for weekdays and weekends. Even when you are away from home, you can still operate your blinds.

**Special Shapes & Sizes.** Oversized windows and special shaped windows can be a challenge but there are solutions available.

**Ready Made vs Custom Made.** Ready made window treatments can be a challenge. Fewer fabric choices and colors, limited sizes, less features, unlined/thin lining, and poor quality of fabric are
