

Fireplace of Your Dreams...in ONE Day!

submitted by

(see ad on page 13)

The upgrades you've made to your home over the years reflect your unique style—but your fireplace remains behind the times. Its outdated facade clashes with your home's aesthetics and it constantly bleeds air—costing you energy savings month after month.

But replacing that old, inefficient fireplace will cost a fortune and the project will be extremely messy—if it can be replaced at all. Right?

Not at LanChester!

Regardless of your home's construction material... brick, stone, stucco or vinyl siding, we have a solution for you!

The photos on this page (in chronological order left to right) are from an actual project completed here in Lancaster County. And yes, it was completed in one day!
